SUMMARY

Software Engineer with nearly 2 years of experience building full-stack web applications using React.js, TypeScript, NestJS, Node.js, and MongoDB. Experienced in developing responsive UIs, RESTful APIs, JWT/RBAC authentication, WebSockets, Razorpay payment integration, and third-party services. Strong in building scalable, modular, and maintainable business applications.

TECHNICAL SKILLS

- **Frontend:** JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Redux Toolkit, Zustand, TanStack Query
- **Backend:** Node.js, Express.js, Nest.js, RESTful APIs, JWT, WebSockets
- **Databases:** MongoDB, MySQL
- **Cloud & Tools:** Git, GitHub, Postman, Swagger, AWS(EC2, S3), Docker

PROFESSIONAL EXPERIENCE

Mitroz Technologies

Pune, Maharashtra

MERN Stack Developer

Jan 2025 – Present

- Developed scalable full-stack applications using **React.js, TypeScript, NestJS, Node.js, MongoDB, and RESTful APIs** with modular and maintainable architecture.
- Built responsive, reusable UIs using **React.js and Material UI**, implementing dashboards, forms, data tables, filtering, pagination, validation, and role-based workflows.
- Developed **NestJS REST APIs** using controllers, services, DTOs, middleware, validation, exception handling, authentication, and business logic.
- Implemented **JWT/OTP authentication, RBAC, protected routes, and permission-based workflows** across multi-role applications.
- Integrated **Razorpay payment gateway and WebSockets**, enabling payment workflows, real-time trip/location updates, booking status changes, and live application events.
- Designed **MongoDB data models** and integrated **AWS, OTP/SMS, push notifications, file storage, maps/location services, TanStack Query, Git, GitHub, and Postman** for scalable application development.

PROJECTS

Adrasha

- Developed a digital health-record management application for ASHA workers with features for profile management, health records, and streamlined data tracking.
- Built responsive, API-driven interfaces using **React.js, Material UI, Redux Toolkit, TanStack Query, Spring Boot, and MongoDB**.

Blood Bank Management System

- Developed a web-based blood bank management system using **React.js, Express.js, and MongoDB** to manage blood inventory, donors, and blood requests.
- Implemented responsive interfaces and RESTful APIs for **CRUD operations, data management, search, and request workflows**.
- Designed MongoDB data models and integrated frontend components with backend APIs for efficient blood inventory and donor management.

Contact Plus

- Developed a contact management application with **CRUD operations, pagination, sorting, and secure user authentication**.
- Implemented OAuth2 authentication using **Google and GitHub** with **Spring Boot, Thymeleaf, Tailwind CSS, and MySQL**.

EDUCATION

JSPM's Rajarshi Shahu College of Engineering, Tathawade

Pune, Maharashtra

Master of Computer Applications (MCA)

Aug 2023 – May 2025

CGPA: 9.27/10

Sadguru Gadage Maharaj College, Karad

Karad, Maharashtra

Bachelor of Computer Science (BCS)

Sept 2020 – June 2023

CGPA: 9.13/10

CERTIFICATIONS

- **NPTEL – Data Structures & Algorithms** Oct 2024
- **Hackathon Participation – JSPM Group** Mar 2023
